

6. For each event plan, list the plan number, count of the event plan lines, and sum of the number of resources assigned. For example, plan number "P100" has 4 lines and 7 resources assigned. You only need to consider event plans that have at least one line

```
SELECT
    planNo, COUNT(lineNo), SUM(numberFLD)
FROM
    eventplanline
GROUP BY
    planNo
HAVING
    COUNT(lineNo) >= 1;
```

planNo	COUNT(lineNo)	SUM(numberFLD)
P100	4	6
P101	3	8
P102	3	8
P103	3	8
P104	2	8
P105	2	8
P199	1	1
P349	1	1
P85	3	10
P95	5	16
